

**Dr. D. Suresh Kumar**  
*M.Sc.,Ph.D*  
dsureshkumar82@gmail.com

**Dr. D.SURESH KUMAR**, presently serving as Principal University PG College, Godavarikhani and Chirmen Board of studies in Physics , Satavahana University. He has obtained his Masters degree in PHYSICS from Nizam College (Autonomous), Osmania University in 2004 with distinction. He was awarded Dr. P.G Puranik memorial Gold medal and Dr. T. S Narasimhamurthy memorial Gold medal from Osmania University for his academic excellence in Post Graduation. He has done his Doctoral degree in Physics from Osmania University in Feb 2015 on the problem Preparation and Characterization of graphene oxide reinforced thermoplastics starch based green nanocomposites. He has worked as Assistant Professor Contract at Department of Physics Nizam College and later worked as Post Graduate Teacher in Physics for Telangana State Model School on regular appointment before joining Satavahana University as Assistant Professor in Physics in October 2015. He has about 14 years teaching experience from School to PG level. His resarch interests includes Development of novel Polymer nano composites using different types of nanofiller such as CNT's, Graphene oxide etc., and their chracterization. He has attended several national and international conferences and presented papers. To his credit, he has published 6 articles in national and international journals.
